

branded snap frame - 47mm | single-sided

snap frames

Printed strips are held in place under optically clear sleeves. This enables full colour branding of frames.

Accurate 45° mitred corners are produced to exacting tolerances, ensuring a high quality finish.

The inside frame snaps open to allow the poster to be changed - no special tools are required.

Branding your frames allows for identification. Brand colours and logos reinforce your poster message.

High quality stainless steel springs are used to ensure the long-term durability of the units.

Supplied with a rigid backing sheet and a non-reflective clear front cover as standard.
