

LED'S AND TRANSFORMERS

COMPONENTS

RIGID STRIP 300mm of Rigid Strip = 0.350 M Amp

FLEXI STRIP 1000mm of Flexi Strip = 0.350 M Amp

TRANSFORMER 1.5 Amp or 3 Amp transformers are available

BENEFITS:

- Very low electricity consumption.
- Life expectancy 5 year.
- Low heat generation.
- 12 Volt DC - Very safe to work on.
- Easy connection.
- Seperable every 3 LED's.
- Can be made up to any length.
- Can be ordered in White Light or Colors (RGB).
- Option include flashing, dimming control and color changing.
- Very compact and easy installation.
- Massive reduction in maintenance cost.

APPLICATIONS:

- Edge lighting for transparent or diffused materials.
- Lighting for letter boxes, light boxes or any lighting application.

PRICELIST

LED RIGID STRIP - Strips are calculated per 300mm lengths	300MM strip	
LED FLEXI STRIP - Strips are calculated per meter	1000MM strip
