

moonlight - double-sided

Double-sided Moonlights can be built into a wide variety of free-standing or suspended display units.

Double-sided Moonlights are slimline illuminated displays which can display edge-lit posters on two faces.

The poster is protected behind a clear magnetised cover and can only be changed with a suction cup (provided).

illuminated displays

Moonlights can be fitted with either low energy consumption LED lights or fluorescent TL5 lamps.

The clear magnetised cover is also fitted with positioning tabs to ensure perfect placement of the poster.
