

## security frame - 31mm | mitred corners

A smooth frame profile and high incline edges characterise this Security frame.

Accurate 45° mitred corners are produced to exacting tolerances, ensuring a high quality finish.

A durable injection moulded tool is provided which is used to open and close the Heavy Duty Security frame.

This frame is ideal for public places and high traffic environments and greatly improves poster security.

Frames are supplied with a rigid backing sheet and a non-reflective clear front cover as standard.

## snap frames

**Optional:** Heavy Duty springs enhance security, making it very difficult to open the frames by hand.
